NOISE ABATEMENT PROCEDURES

Note: Compliance with the following Noise Abatement Procedures does not affect a pilot's responsibility to operate in accordance with Civil Aviation Safety Regulations and procedures.

1. Sensitive areas to N, E and W to be avoided at all times.
2. DEP from RWY 24 required to make a 90DEG left turn at 500FT AGL to avoid overflying the Hospital and populated areas.
3. DEP from RWY 29 required to make a 90DEG right turn at 500FT AGL to avoid overflying populated areas.
4. DEP from RWY 24 and 29 required to commence ground roll at E extremity of RWY.
5. MAX 5 ACFT (including HEL) conducting circuits at any time.
6. Training CCTS Caboolture based operators only. PPR for all other operators.
7. Training CCTS permitted between 0700 Local and last light.
8. Fly neighbourly guidance AVBL from website.

ADDITIONAL INFORMATION

1. Kangaroo and bird hazard exists.
2. Caution: standing water or soft movement areas after rain.
3. Gliding OPS using aero-tow.
4. YCAB has diverse range of operational and training activities such as fixed wing, HEL, warbirds, ultralight, gyrocopters, parachutes, banner towing and formation flying.
5. Pilots should be aware that trees may encroach the transitional slopes gradients.
